

Mitterstockstall - Wagram

Direder, a name that stands for high quality wines since 1849, is rooted in tradition and has evolved **over the generations**. Paul D. pours passion and love into his wines. Working in his own vineyards since he was 17, he produces high quality wines for your everyday enjoyment. When Paul D.'s great-great-grandfather, Leopold Direder, earned his living with traditional agriculture in the wine region of the Wagram in 1849 he did not expect that his wines would one day conquer the world.

Paul D Frizzante Rosé Sparkling Rosé

The perfect aperitif! The fine sparkling Frizzante, with its strawberry and slight honey smell, purely delivering on the palate what was promised in the nose. Dry but still berry – simply enjoyable! Frizzante describe the level of effervescence (i.e., the strength of the bubbles) in a bottle of sparkling wine. Wines labeled 'frizzante' are what we call gently sparkling. Frizzante wines have between 2.5 and 3.5 bars of atmosphere/pressure while Spumante, most Prosecco's and Champagne are usually between 5 and 6 bars.

Frizzante wines are known as 'Perlant' in French and as 'Perlwein' in German. Prosecco is probably the most well-known frizzante wine style, but most Prosecco wines usually are made fully sparkling (spumante).

Paul D. Grüner Veltliner Cans

“Wanted” GV cans Dry and crisp, citrusy wine showing hints of green apple. Great with seafood, salads, white meat, fish and sunshine. Perfect for the beach, the pool, going to a picnic, your deck or backyard. Any time or place, when you need a refreshing glass of wine pop this delicious "Grüner" can and enjoy!!

“Yes, Austria is a white wine country, and we are known for Grüner Veltliner. So we decided to put this delicious juice from Paul Direder in a can. This is the same quality Grüner we have become to like so much over the past few years. When you open this can you'll get a pop, and the first sip is a little frizzante due to the total closure of the can. So, I suggest you'll still pour this in a wine glass if possible, wait for just a minute and that natural Co2 will blow off. Or drink straight out of the can and you'll enjoy a frizzante Grüner at first. Refreshing and crisp with the typical white pepper finish.” Klaus Wittauer
