the vineyard

Reihburg: The vines roots on green and blue slate stone are covered with moderately heavy, to heavy clay. Very high iron levels and micronutrients shape these wines.

Fasching: Thanks to the South-south-West orientation, it enjoys both morning and late evening light. Ground and climate give the wine a masculine elegance, a lot of body, but at the same time a clear mineral structure.

Saybritz: The ground, composed of brown earth, rock and slate, give the grape's typical minerality.
