STEINDORFER

Apetlon

Perfektion in Weiß / Rot und Edelsüß

Steindorfer is a traditionally-run family operation and located in „Seewinkel“ at the eastern bank of the lake „Neusiedler See“. Our family has been engaged with wine for generations. Following this tradition, we create complexe, elaborate-noted and distinctive wines reflecting the typical character of the region. The pannonian climate as well as the favorable soil conditions of this northern part of the Burgenland- Austria´s most eastern state – are allowing the production of superior quality wine. Our grape are handpicked and treated as well as processed with the highest accuracy.
